

STOCK #	DESCRIPTION	R.R.P
<p>Since the beginning in 1976, Eden Electronics have had one goal in mind: To build the highest quality bass amplification equipment possible. From the beginning, the key to their success has been the development of high-quality, innovative designs, coupled with the best possible quality control through in-house manufacturing of all key design elements. David Eden Bass Amplifiers offer bassists a wealth of choices to match their style and venue.</p>
