

STOCK #	DESCRIPTION	R.R.P
<p>Since the beginning in 1976, Eden Electronics have had one goal in mind: To build the highest quality bass amplification equipment possible. From the beginning, the key to their success has been the development of high-quality, innovative designs, coupled with the best possible quality control through in-house manufacturing of all key design elements. David Eden Bass Amplifiers offer bassists a wealth of choices to match their style and venue.</p>		
<h3>WORLD TOUR SERIES BASS HEADS</h3>		
WTX-260	X class Analog switching amplifier , 300W @ 4 ohms. Universal AC line input. Sub compact light weight package @ 3.8 Lbs and 8" x 9" x 2.5". Features 3 way tone control with mid shift, dynamic bass boost, input pad, Enhance control, Pre/post D.I. selector, effect loop, Stereo Aux input, D.I. with ground lift, Headphone out, tuner output, and fan.	\$1450.00
WT-405	Time Traveller- Hybrid IC amplifier , 405W @ 4 ohms 620W @ 2 ohms. Switchable automatic compression, 3-way semi-parametric tone control, Dual inputs, Input pad, Warm control, Enhance, pre and post effect loops, stereo aux inputs, DI out with ground lift, headphone out, tuner out, thermostatically controlled fan. Rack mountable 15lbs.	\$2125.00
WT-550	Traveller- Hybrid amplifier , 500W @ 4 ohms 620W @ 2 ohms Switchable automatic compression, 5-way semi-parametric tone control, pre and post effect loops, stereo aux inputs, DI out with ground lift, headphone out, tuner out, thermostatically controlled fan. Rack mountable 18lbs.	\$2450.00
WT-800	World Tour- Hybrid stereo amplifier , 2 X 440W @ 4 ohms Switchable automatic compression, 5-way semi-parametric tone control, Input pad, Enhance control, Electronic crossover, pre and post effect loops, stereo aux inputs, DI out with ground lift, headphone out, tuner out, thermostatically controlled fan. Rack mountable 26lbs	\$3395.00
WT-1205	World Tour- Hybrid stereo amplifier , 1200W bridged @ 4 ohms. Incorporates dual full featured preamplifiers. Ch. 1 has a variable compressor, gain boost, enhance control with bypass, dual effects loop, along with a 4 band EQ. Ch. 2 has all these features plus 3 band EQ with a sweepable midrange control and a dual effects loop.	\$3895.00
VT-300B	All tube 4-space rackmount head . Footswitchable mute to tune, Hi and low gain inputs, overdrive, EQ bypass, compressor on/off, and variable damping. Adjustable exterior bias controls. Fan cooling. Footswitch included. Dual tone controls. 1/4" and NL4 speaker out. 40 lbs.	\$4995.00
