PHOSPHOR BRONZE ACOUSTIC SETS Different guitars respond differently to different alloys. Some sound better with Bronze, some sound better with PhosBronze™. If you want a lot of power and punch, with lots of midrange and highs, or your guitar's top needs extra punch to project, try a couple of different gauges to find just the right gauge for your guitar. PhosBronze™ is powerful and very bright while still having a smooth low end. PhosBronze™ comes factory equipped on many acoustics.

<p>ALCHEMY PHOSPHOR BRONZE ACOUSTIC The Phosphor Bronze are Beautifully sounding with a warm and evenly nice rounded Tonal Projection with a very FULL-ON sound. These work particularly well in the Studio setting, as there is not much EQ to add or take away due to the character-landscape type of sound that they offer. They have a very balanced and even feel about them - with total voicing separation, and their Quality of sound is a total Inspiration..!!</p>
